

We are very happy to announce a new partnership between GMVA and Hydralyte for the 2014 season. Hydralyte is a wholly Australian owned company who manufacture and market clinical hydration products, which are available in pharmacies nationally. Hydralyte will supply GMVA with their Hydralyte Sports™ product, which is lower in sugar and higher in electrolytes than many other commercial sports drinks. We are very excited to be able to bring Hydralyte products to our athletes to keep them hydrated and performing at their best.

Not only will Hydralyte provide GMVA and its athletes with the best hydration products available but they will also run an education night for our athletes and coaches so we can all learn more about sports hydration before, during and after exercise.

Hydralyte is a great addition to the positive, moral and supportive sponsors we already have and will compliment the nutritional support we already receive from Orgran.

The partnership with GMVA is Hydralyte's first step into volleyball in Victoria and we are looking forward to growing this partnership in 2014 and beyond.

We would like to thank Hydralyte for the support of volleyball in Victoria

Luke Campbell
